

2021 TELPAS Speaking Rescore Request Form

The district testing coordinator may order rescoring on behalf of school personnel or parents who want to have an individual student's speaking test rescored. When this request is submitted, testing contractor Pearson will have the scored speaking responses for that student rescored. Results of the rescore will be confirmed in writing to the district coordinator.

If scores are changed, Pearson will produce an updated Student Report Card and an updated district data file during the weekly report updates and will waive the fee. The district coordinator is responsible for conveying the results to other school personnel or parents who have requested the rescore.

- The rescore request fee is **\$50 per student** and must be paid with a Purchase Order by the district.
- A rescore request can only be submitted by the district coordinator.
- A rescore request can only be submitted for the current 2021 Texas English Language Proficiency Assessment System (TELPAS) speaking items.
- All fields on this form are required and must be completed to process the request. **Incomplete forms or forms submitted by a user other than the district coordinator will not be processed.**
- Rescore results will be sent to the requestor within 2–4 weeks after Pearson receives this completed form.
- Complete and attach this request form in a Support Request under the **2021 Spring TELPAS Grades K–12** administration in PearsonAccess Next. Forms submitted under the wrong administration may be delayed.

If you have any questions, call the Customer Service Center at 800-627-0225.
